

## Videor U.K. Premises

Our new office is near Berkhamsted and having operated a U.K. Branch since 1986 near Basingstoke we decided upon a location with better traffic links and more room for the UK operation to continue its growth and support. You can reach the Berkhamsted office in a few minutes from exit 20 on the M25 which is also close to London Heathrow, Luton and Stansted Airports. We manage all sales, technical and distribution support tasks in close coordination with our Head Office in Germany. You can experience live demonstrations from a selection of our most innovative products in our state of the art demo room whilst enjoying idyllic surroundings.

We would be delighted to arrange an appointment for you to visit us. Please contact one of our Area Sales Managers or the sales office to make an appointment to suit you.
