

Jetrics WDR-480-48 Industrial Power Supply

SKU: 245313

Input 230VAC, Output 48VDC, for DIN RAIL
TS-35/7.5 or 15 Operating temperature from -30 °C to +70 °C

Main Features

DIN rail power supply for industrial applications with 480 W

Input voltage range: 180-550 V AC, 3-phase

Output: 48 V DC / 10 A

Analogue interfaces: Relay output for DC OK

Efficiency up to 91%

Fanless design, cooling by free convection

Operating temperature from -30 °C to +70 °C

Protection against overload, overvoltage, overtemperature, short circuit

EMC standards: EN 55032

Safety standards: UL 61010-1, UL 61010-2-201, EN 61558-1,

EN 61558-2-16, CE, UKCA mark
